**DIRECTIONS: (Question No. 105 to 108)** Read the following passage and give the answers of the following questions.

The refusal of British to be a part of European Union (EU) with greater political unification is unfortunate. It does not mean that one European community with free movement of goods, people and ideas is redundant. Notwithstanding its economic vows there is no denying that the fundamental post–national ideal of EU has held Europe in good stead leading to an era of unprecedented peace and cooperation. There is a need to learn from the downturn is that currency union without fiscal union is flawed. The solution is greater integration and alignment of financial, political and legal structures of member states. The argument that Europe with its diverse language and cultures cannot survive as a union, doesn't cut ice either. Just like the diversity in India, there is no reason why the EU cannot fuse into a political union. Having congruence in foreign policy, a 'United States of Europe' is the next logical step for the common economic bloc; and if Britain does not join, it stands to be isolated.

105. What is the message the author wants to give in this passage?
    A. Integration will help member states to consolidate their power and supremacy
    B. Fiscal integration is must for Member states
    C. Unity within diversity for member estates
    D. Britain should go for fiscal, political and economic integration

106. What does it mean to convey– the fundamental post national ideal of EU?
    A. Self-contained autonomy of nation states
    B. Cultural, demographic and economic integration of member states
    C. Transnational flow of capital, communication and people across Europe
    D. Economic growth and development all member states

107. What do you mean by the term 'does not cut ice either' in this passage?
    A. To penetrate with a sharp edge
    B. To have a frozen surface of a body
    C. To make no inroads
    D. To have no influence or making no impression

108. What is the logic of UK for not joining the EU?
    A. Maintaining its sovereignty and autonomy
    B. It will have adverse impact on fiscal growth of Britain
    C. Its money will be devalued
    D. It will lose its cultural identity
