$$\text{SI for 3 year at 20\% pa} = \frac{250 \times 3 \times 20}{100} = 150$$

$$\text{Difference} = 182 - 150 = 32 \rightarrow 176$$

$$\Rightarrow \text{Sum} = \frac{176}{32} \times 250 = 1375$$

$$\text{Required Interest} = \frac{1375 \times 2 \times 10}{100} = 275$$

OR

Alternate method

$$\text{Difference} = \frac{P r^2}{100^2} \times \frac{(300+r)}{100}$$

S71. Ans.(b)

Sol. The given passage revolves around drastic increase in food prices, thus resulting in inflation. Also, there has been a diversion of certain food commodities (corn and edible-oil) to bio-fuels, which has disturbed the demand and supply chain. There has been an acute shortage of food commodities because the farmers are not provided with adequate incentives to increase the supply of food and agricultural products. Therefore, we can say that the theme of the passage is 'the worldwide acute shortage of food commodities'.

S72. Ans.(b)

Sol. The third paragraph of the passage states that there has been a diversion of food (corn and edible oils) to bio-fuels which has resulted in huge increase in food prices.

S73. Ans.(a)

Sol. The fourth paragraph of the passage states that the recent reduction in interest rates in the U.S. and injection of liquidity have prompted investors to look towards commodity markets.

S74. Ans.(d)

Sol. According to the fourth paragraph of the passage, the weakening of U.S. dollar and volatility in commodity markets exhibit a cause-effect relationship.

S75. Ans.(e)

Sol. The given passage highlights that at present, the demand for food items is higher as compared to the supply of food items. Also, the preference has shifted from filling the empty stomach to filling the fuel tank of automobiles. Furthermore, farmers are not provided with adequate incentives to increase the supply of food and agricultural products. Therefore, options (A), (B) and (C) can be inferred from the passage.

S76. Ans.(c)

Sol. According to the passage, the current global situation is very serious and food prices are increasing drastically. To overcome the escalation in food prices, farmers should be motivated and provided with adequate incentives to increase the supply of food and agricultural products.

S77. Ans.(a)

Sol. According to the fourth paragraph of the passage, the relatively easy liquidity and reduction in interest rates have resulted in erratic behavior of commodity markets.

S78. Ans.(c)

Sol. In context of the passage, 'no government would prefer to fill the fuel tanks of automobiles rather than filling the stomach of the people' is false as per the last paragraph of the passage.

S79. Ans.(d)
